PROFILE

A passionate Full-Stack Developer with hands-on experience in developing web applications using the MERN stack. Recently completed a Full-Stack Web Development certification from GUVI - IIT Madras and eager to apply my knowledge to solve real-world problems. I am motivated by challenges, continuously learning new technologies, and looking forward to contributing to innovative projects in a collaborative team environment.

GUVI PROJECT EXPERIENCE

Cricket Website

- Designed and developed a responsive cricket website featuring team details, player statistics, and current IPL updates.
- Focused on clean, modern UI with a mobile-first approach.
- Implemented flex layouts and interactive features using HTML and CSS.

Keywords: HTML, CSS

Todo Application

- Built a responsive Todo application with add, edit, delete, and filter functionality.
- Developed reusable components and a clean UI for better scalability and user experience.

Keywords: React (Vite), JavaScript (ES6+), HTML5, CSS3

Cutoff Calculator

- Developed a Cutoff Calculator to help students evaluate eligibility based on multiple parameters.
- Implemented student profile management, allowing users to save and update their information.

Keywords: React.js, React Router, Bootstrap5, HTML5, CSS3

Food Delivery App

- Built a full-stack food delivery application with secure JWT authentication, role-based access, and order management.
- Designed a responsive frontend with reusable components and a REST API backend for food items and orders.

Keywords: MERN Stack (React, Redux Toolkit, Node.js, Express, MongoDB)

Movie Ticket Booking App

- Developed a full-stack movie booking platform with dynamic seat booking, city & theatre selection, and admin controls.
- Implemented JWT & Google OAuth authentication, order management, and scalable backend architecture.
- Designed a responsive UI with reusable components for optimal user experience

Keywords: MERN Stack (React, Redux Toolkit, Node.js, Express, MongoDB)
